VRM Call Summary

The system maintains and updated "call list" by service rep, and identifies which vendors to contact and in what sequence. The selected vendors are displayed in the requested sequence, in summary mode. The operator can then drill down, by clicking on the vendor number, to obtain detailed information.

Vendor Service Rep – The operator code entered. The vendor master file records that have the corresponding vendor service rep, with prior notes, are selected.

The functions located at the bottom of the menu provides with a quick access to other features on the system.

Vendor Relationship Management Call Detail

When a vendor is selected, the selected Vendor record is displayed. This is the process where individual calls, or notes, are recorded.

The operator can update the record by making changes to any of the numbered line items. For example, they can change the contact name by clicking on the contact name field and typing over it.

They operator can also update the Follow Up date by clicking on the field, then clicking on the drop down arrow to display the calendar, then clicking on the correct date.

Notes:

Vendor Relationship Management Call Detail

OperRef – Enter the operator initials, if different than your own. You can hit <ENTER> to select your own operator initials.

Date – Enter date of note or hit <ENTER> to use the system date.

Time – Enter the time, in military format, or hit <ENTER> to use the system time.

Contact – Enter the contact name.

Notes/Text – Enter the actual note. You may use word processing features to cut/copy/paste information into this field, if you wish.

Topic - Enter a value that can be used to categorize this set of comments. This value can then be used at a later time to view all comments related to a specific topic.

PO/Inv# - Enter a Valid PO Transaction/Invoice Number – if applicable.

Ret – Enter retain code, “Y” or “N”. When completed, the system will forward the operator to the bottom of the screen, with the prompt:

Enter Line Number to Change or '0' to Accept:

Enter “0” to save the changes.
