

The Return Process

The Return Process

Product is ordered by customer.

The Return Process

Customer needs to return product, a Return Authorization is created.

The Return Process

The RA is reviewed and approved. Customer is sent RA Form.

The Return Process

RA form and product is received back to warehouse and customer is credited.

The Return Process

Need to return product to Vendor. A Vendor Return is created.

The Return Process

Approval is received.
Voucher is created.

The Return Process

Product is ordered by
customer.

The Return Process

The Return Process

➤ Return Authorizations

- Track return process from entry to receipt
- Apply credit to customer's AR automatically
- Affect inventory, if necessary

The Return Process

➤ Return Authorizations

- Track return process from entry to receipt
- Apply credit to customer's AR automatically
- Affect inventory, if necessary

➤ Return to Vendor

- Return product back to vendor
- Affect inventory, if necessary
- AP Debit Voucher created automatically when Pick ticket is printed
