MDS Quick Guide – Web Product Acknowledgements
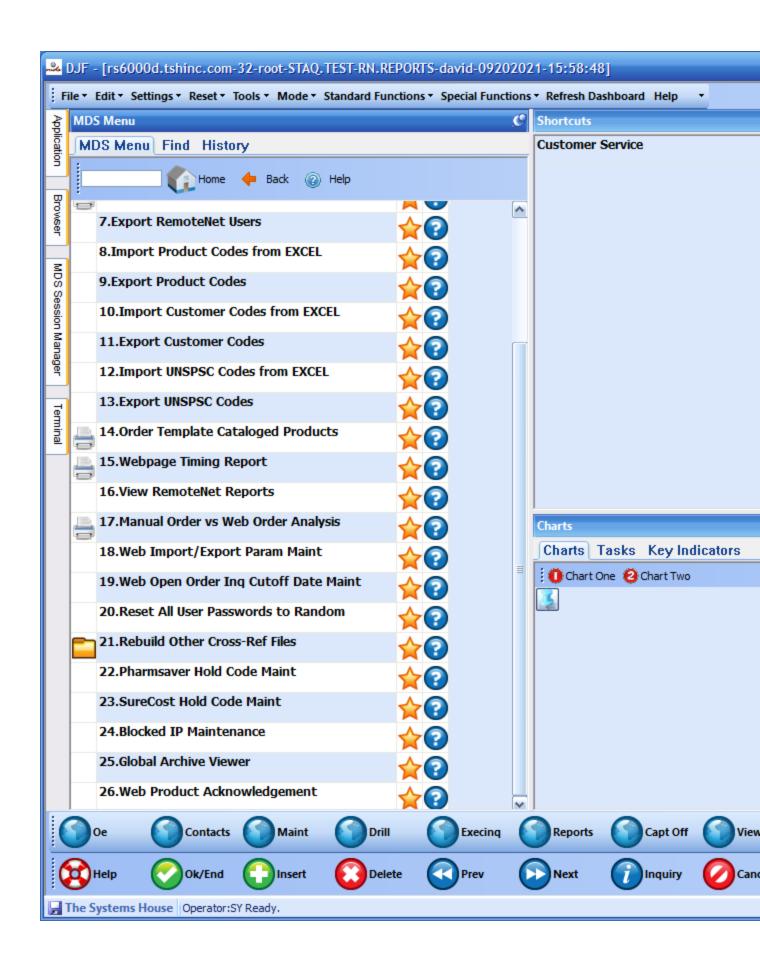

Overview:

This quick guide outlines the ability to Setup a Required Product Note or "Acknowledgement" a customer must ok prior to completing their order.

Once an item is added to the cart during the checkout process it will verify, they have an acknowledgement on file and save the date/time and user who clicks the button.

Reporting can be done via Excel on the WEB_PROD_ACK TABLE or via the maintenance.

Step 1. Setting up product messages, note you will need the internal item number for setups. (To get your internal number you can use product master maintenance)

Needs parameter web.order.options * #93 - Force user to Confirm Product Acknowledgements at Checkout Y/N
