

MDS Inquiries

Inquiry Programs

The inquiry module provides current status information on the portions of the system database most important for decision making. All inquiries are available on a standalone basis from the main system selector, and are also available during order entry, purchasing, etc.

To access the 2nd page of Inquiries, type in the field number labeled '**Miscellaneous Inquiries**' and hit <ENTER> or click on the field labeled '**Miscellaneous Inquiries**'.

Notes:

Inquiry Programs

There are 2 pages of Inquiry programs listed in Inquiries sections, the following is what is covered on the 2nd page:

Consignment Inquiries

- Customer Open Consignments
- Detailed Open Consignments
- Open Consignments by Item

Pro Forma Inquiries

- Customer Pro Forma Summary
- Detailed Pro Forma Inquiry
- Customer Pro Forma/Detail
- Item Pro Forma/Detail

Return Authorization Inquiries

- Return Authorizations by Customer
- Detail Return Authorizations Inquiry
- Return Authorizations by Product

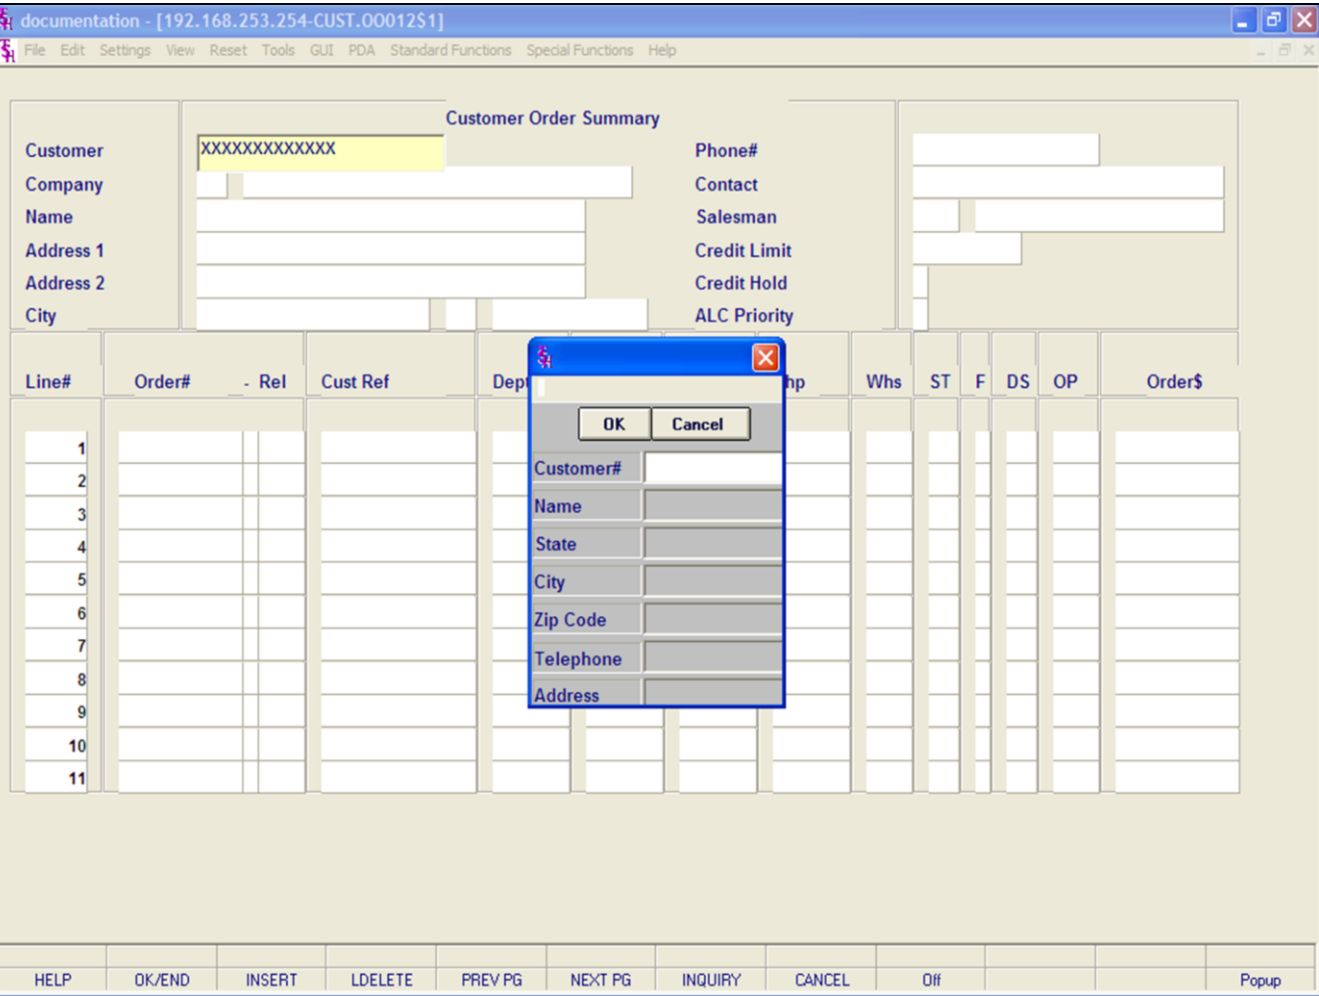

Standing Order Inquiries

- Customer Open Standing Orders
- Detailed Open Standing Orders

Miscellaneous Inquiries

- Executive Inquiry
- Customer Sales Inquiry
- Customer Contact Inquiry

Notes:

Customer Lookup

The customer lookup routine is used in the Inquiries module. To access the lookup features enter one of the following at the customer number prompt:

1. Select the 'F7' function key, click on the 'INQUIRY' icon, or click on the drop down arrow next to the field to initiate the lookup routine. The operator will then be prompted to enter part of the customer number, name, state, city, zip code, telephone, and/or address.

2. Enter the customer's phone number.

3. Enter part of the customer number to also initiate the lookup routine.

MDS offers several flexible methods to identify and retrieve the appropriate customer record. Customers can be accessed by an alphanumeric acronym as well as by the assigned customer number. The rules for the acronyms used are flexible, and can be tailored to each individual customer's need. In fact, a customer could be accessed by more than one name. For example, The Systems House, Inc., could be found under:

- T+S+H (Initials)
- SYSTEMS (First Significant Name)
- HOUSE+S (Last Name, First Initial)
- SYST,07013 (Last Name, Zip Code)
- NJ (State)
- 2017778050 (Telephone Number)

Notes:

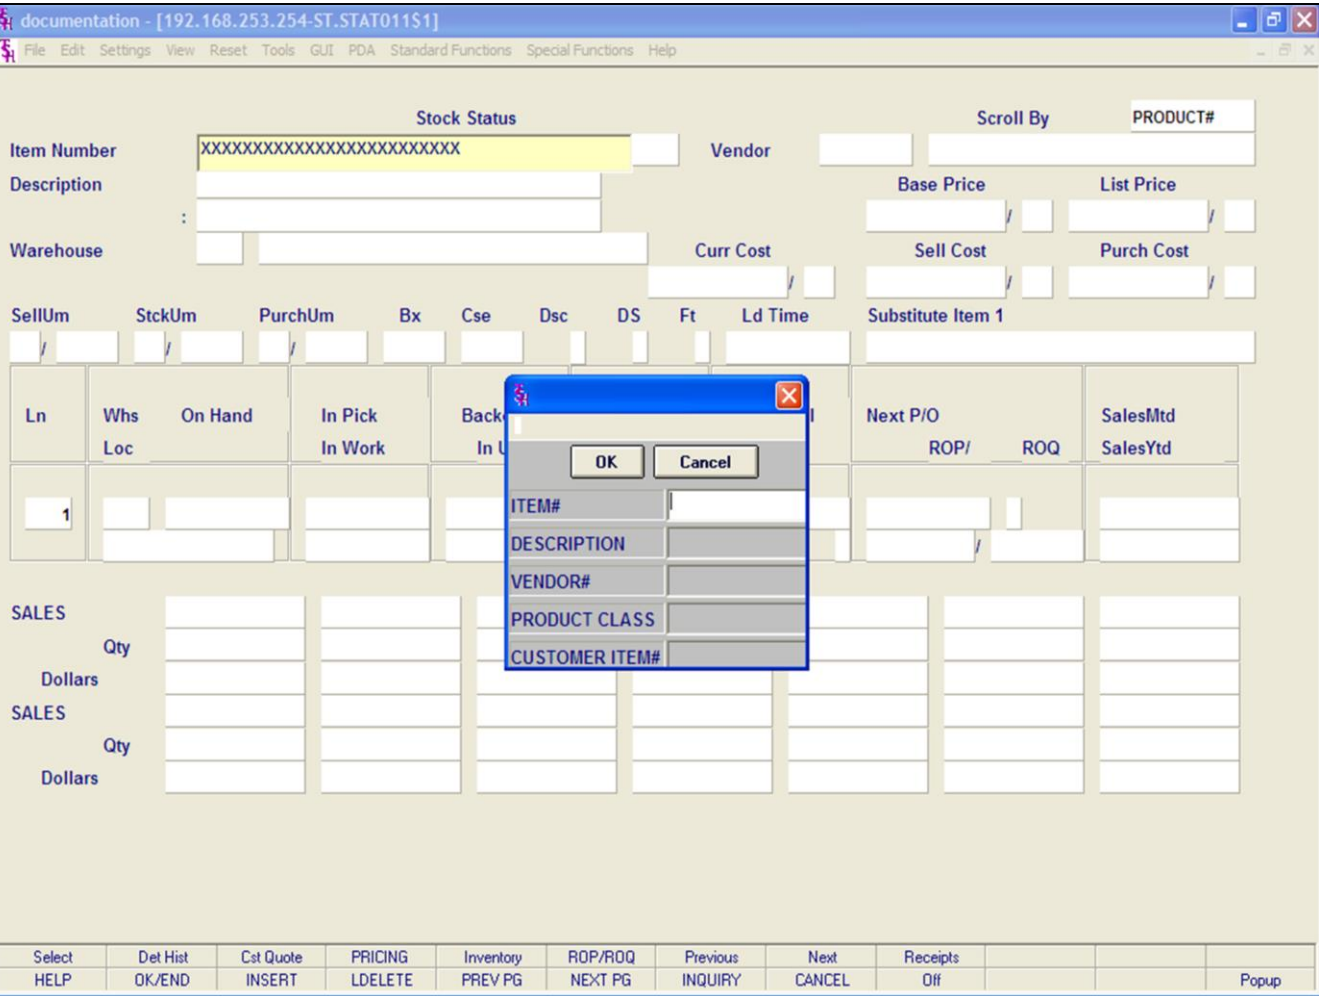

Continued on next page.

The screenshot shows a software window titled 'documentation - [192.168.253.254-CUST.00012\$1]'. The main area is divided into a 'Customer Order Summary' form and a data table. The form includes fields for Customer (XXXXXXXXXXXX), Company, Name, Address 1, Address 2, City, Phone#, Contact, Salesman, Credit Limit, Credit Hold, and ALC Priority. The table has columns: Line#, Order#, - Rel, Cust Ref, Dep, Whs, ST, F, DS, OP, and Order\$. A modal dialog box is overlaid on the table, with fields for Customer#, Name, State, City, Zip Code, Telephone, and Address, and buttons for OK and Cancel. At the bottom, there is a navigation bar with buttons: HELP, OK/END, INSERT, LDELETE, PREV PG, NEXT PG, INQUIRY, CANCEL, Off, and Popup.

Customer Lookup continued

This is accomplished by the system assigning an internal numeric customer number through file maintenance. When the external number is entered the customer name and address are displayed for verification. If this is the correct customer, the operator may accept it or continue and see the name and address of the next customer that shares this external number until there are no more customers with this external number.

Notes:

Notes:

Product Lookup

MDS offers several flexible methods to identify and retrieve the appropriate Product record.

The system provides the ability to refer to a product by any number of different references. This may be used to record:

1. The normal inventory product code.
2. The vendor's item number.

Either of the above product codes may be used to retrieve the product. In addition, a product lookup feature is provided, as described below.

INQUIRY FUNCTION

At the product number prompt, the operator can:

1. Click on the drop down arrow next to the field.
2. Click on the **'INQUIRY'** icon.
3. Hit the **'F7'** function key.

By initiating the Inquiry function, the product lookup screen is displayed, which allows access to products by:

1. The product's base code, which allows for the display of all size (for example) or colors of a product.
2. Enter any part of the product description.
3. By vendor number.
4. By product class.
5. By customer item number.

Thus, a specific product can be accessed by:

- 513029-42 Full Product Code
- 513029 This Will Display All Products Starting With 513029
- SWEA Part of Description
- 004 Product Class
- 17000 Vendor Number
- 513-SWE Customer Item Number

Product Lookup continued

Partial Entry

Enter part of the product number to initiate the lookup routine.

In addition to displaying the range of products available, the lookup inquiry screen provides pricing and inventory availability information, including the customer purchase history (if Parameter is set).

When the product is found, the operator can select the product by double clicking on the product or by highlighting the product followed by clicking on the 'OK' button.

Product Number

Enter a valid product number for manual input of product. Non-stock or special products not on file may be entered with an 'NS' prefix.

Notes:

The screenshot shows a software window titled 'documentation - [172.168.255.234-ST-STAT01151]'. The main window has a menu bar with 'File Edit Settings View Reset Tools GUI PDA Standard Functions Special Functions Help'. Below the menu bar are various input fields for 'Stock Status', 'Vendor', 'Scroll By', 'PRODUCT#', 'Base Price', 'List Price', 'Search Cost', 'Whs', 'Loc', 'Qty', 'Dollars', etc. An 'Inquiry List' dialog box is overlaid on top. The dialog box has a title bar with 'Inquiry List' and a close button. Inside the dialog, there is a text area that says 'MDS PRODUCT LOOKUP USING THE FOLLOWING CRITERIA' and 'ITEM#: F'. Below this is a table with the following columns: 'ITEM NUMBER', 'GP%', 'COST', 'SELL PRC', 'ONHAND', 'AVAIL', 'ON ORD'. The table contains several rows of data, including item numbers like 513029-42, 513029-44, 513029-46, 513029-48, 513029-50, 513029-52 and descriptions like 'EA OLYMPIC UNISEX SWEATER'. At the bottom of the dialog box, there are buttons for 'Add', 'OK', and 'Cancel'. The 'Add' button is circled in red. There are also left and right arrow buttons.

ITEM NUMBER	GP%	COST	SELL PRC	ONHAND	AVAIL	ON ORD
513029-42	38.13	46.40	75.00	2587	2585	150
17000 003 EA OLYMPIC UNISEX SWEATER				GISPA 9005 F1		
513029-44	38.13	46.40	75.00	93	81	200
17000 003 EA OLYMPIC UNISEX SWEATER				GISPA 9005 F1

17000 003 EA OLYMPIC UNISEX SWEATER				GISPA 9005 F1		
513029-50	38.13	46.40	75.00	62	62	150
17000 003 EA OLYMPIC UNISEX SWEATER				GISPA 9005 F1		
513029-52	38.13	46.40	75.00	85	85	150
17000 003 EA OLYMPIC unisex SWEATER				GISPA 9005 F1		

Product Lookup continued

Once the search results are displayed after using the lookup function, you may click on the 'ADD' button to add a new product into the system.

See the Product Master Documentation Guide for assistance.

Customer Order Summary Inquiry

This inquiry provides a summary listing of all customer orders in the Order and Order History file.

Customer - Enter the specific customer number. You may also use the <F7> function key, click on the 'INQUIRY' icon or click on the drop down arrow next to the field to display the lookup box. The system will display the customer number and name.

Company - Enter the 2 digit company number. You may also use the <F7> function key, click on the 'INQUIRY' icon or click on the drop down arrow next to the field to choose from a list of valid companies or hit <ENTER> and the system will choose ALL companies on the system. The system will display the company number and name.

Name - The customer's name and address information is displayed from the Customer Master file.

Contact - The A/R contact name is displayed from the Customer Master file.

Salesman - The salesman name and number are displayed from the Customer Detail file.

Credit Limit - The credit limit is displayed from the Customer Master file.

Credit Hold - The credit hold status is displayed from the Customer Master file, 'Y' or 'N'.

ALC Priority - The allocation priority is displayed from the Customer Master file.

- Line#** - Line number.
- Order#** - The order number is displayed.
- *** - An asterisk indicates a history record for this order.
- Rel** - The last release number for the order is displayed.
- Cust Ref** - The customer's purchase order number, displayed from the Order record.

Dept - The department number is displayed from the Order record.

Detailed Order Inquiry

Line Items

This inquiry provides the current status for a specific order.

Order# - Enter the 8 digit order number, or 'C' to use the customer's purchase order number to search the Order file. If 'C' is entered, you will then be prompted to enter the Customer PO#.

Order Date - The order date is displayed from the Order record.

Due Date - The due date is displayed from the Order record.

Customer# - The customer's name and address, for billing, is displayed from the Order record.

Ship To - The ship to address is displayed from the Order record.

ReIs - Number of releases associated with the Order.

Lns - The number of lines in the Order.

ST - The status of the Order. OP = Order Processing, CH = Credit Hold, BO = Back Order, PH = Price Hold, IV = Invoiced.

Fut - Future order flag. 'Y' = future order, 'N' = not a future order.

DS - Drop ship indicator. If the line on the order is flagged as a drop ship, 'DS' will be displayed in this field, otherwise, 'ND' will be displayed.

OS - The order source code, displayed from the Order file.

PO# - The customer's purchase order number, displayed from the order.

Terms - The terms for this order.

Sls - Salesman number and name.

Detail Release Inquiry

This inquiry provides the detailed information on the current status of a particular shipment (release). This inquiry can also be accessed by the Detailed Order Inquiry.

Line Items

Release# - The 11-digit release number or the 8-digit invoice number may be inputted.

Inv# - Invoice number is displayed, only if the release has already been invoiced.

Ord Dt - Order date.

Inv Dt - Invoice date.

ST - Status. OP = Order Processing, CH = Credit Hold, BO = Back Order, PH = Price Hold, IV = Invoiced.

OS - Order source.

OP - Operator code.

Whs - The shipping warehouse.

Sold To - The customer's number, name, and address, for billing, is displayed.

Ship To - The address to where this release is to be shipped.

Lns - The number of lines on the release.

Cust Ref - Reference field.

Terms - The credit payment terms for this customer.

Salesman - Salesman number and name.

Shipped Orders Inquiry

The Shipped Orders Inquiry will display all items that have already been verified, but not yet shipped, for the specified customer.

Example 1 - If an item is on price hold, and the release has already been verified, the items on the release will be displayed.

Example 2 -If a release that needs to go through the shipping update has not yet, the items on that release will be displayed.

Customer - Enter the specific customer number. You may also use the <F7> function key, click on the **'INQUIRY'** icon or click on the drop down arrow next to the field to display the lookup box. The system will display the customer number and name.

Company - Enter the 2 digit company number. You may also use the <F7> function key, click on the **'INQUIRY'** icon or click on the drop down arrow next to the field to choose from a list of valid companies or hit <ENTER> and the system will choose ALL companies on the system. The system will display the company number and name.

Salesman - The salesman name and number are displayed from the Customer Detail file.

Line# - Line number.

Release# - The release number is displayed.

Ordline# - The corresponding line number is displayed from the Order record.

Summary Accounts Receivable Inquiry

Function Keys

Detail AR
 The DETAIL AR function is available by clicking on the 'DETAIL AR' icon or hitting the Shift+'F1' function key. This function will display the Open Accounts Receivable Inquiry.

Notes:

Open Accounts Receivables Inquiry

The accounts receivable inquiry, by customer, is intended to provide detailed sales and accounts receivable information, for either a single company, or for all companies, on a consolidated basis.

Company - Enter the 2 digit company number. If 'A' for ALL is inputted, all open items for the customer will be displayed, and the sales information will be a summation of all companies. You may also use the 'F7' function key, click on the 'INQUIRY' key or click the drop down arrow next to the field to choose from a list of valid companies. The system will display the company number and name.

Customer# - Enter the specific customer number. You may also use the 'F7' function key, click the 'INQUIRY' key or click the drop down arrow next to the field to display the lookup box. The system will display the customer number and name.

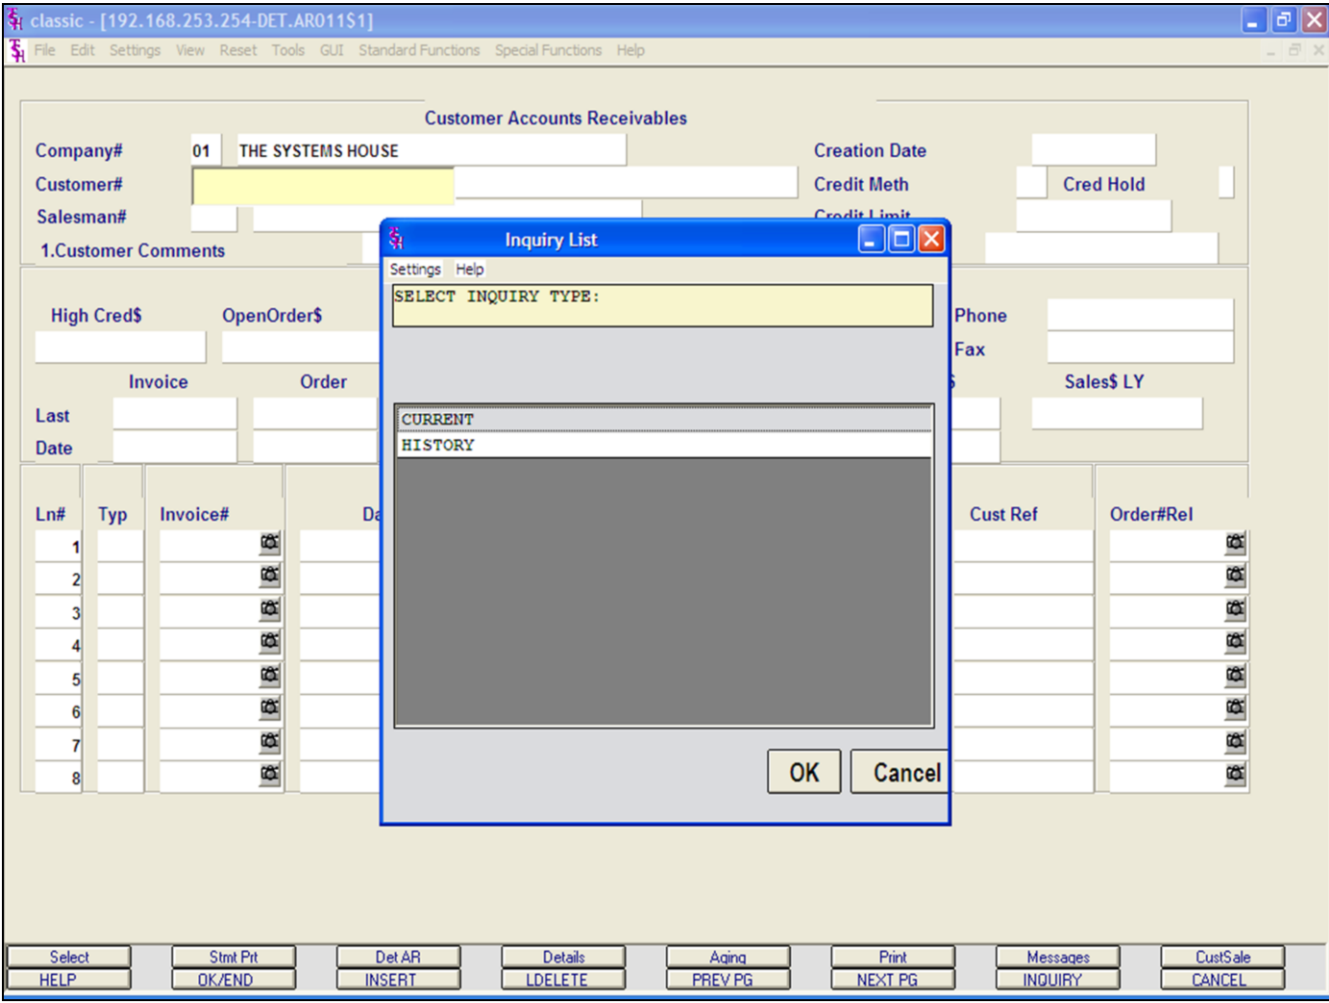

The system will display the pop-up box:

'SELECT INQUIRY TYPE:'

Current will display the current AR detail. History will display the history information. History is updated during accounts receivable end of month.

For this example, choose CURRENT, then click 'OK'.

Notes:

Open Accounts Receivables Inquiry

Salesman# - The customer's salesman number and name are displayed.

Customer Comments - Typing 'CC' will bring you to this field. You are allowed to enter comment information.

Creation Date - The date the customer was created.

Credit Meth - The credit method code is displayed.

Cred Hold - The credit hold flag is displayed, 'Y' = customer is on credit hold, 'N' the customer is not on credit hold.

Credit Limit - The customer's credit limit.

Terms - The customer's payment terms.

A/R Check Detail Inquiry

The A/R Check Detail inquiry displays detailed check information for a customer's specific check.

Operating Instructions

Co# - Enter the 2 digit company number. You may also use the 'F7' function key, click on the 'INQUIRY' icon or click the drop down arrow next to the field to choose from a list of valid companies. The system will display the company number and name.

Cust# - Enter the specific customer number. You may also use the 'F7' function key, click the 'INQUIRY' icon or click the drop down arrow next to the field to display the lookup box. The system will display the customer number and name.

Check# - Enter the customer's check number. You may also use the 'F7' function key, click the 'INQUIRY' icon or click the drop down arrow next to the field to display the lookup box.

If using the Document Management System, you can click on the camera to scan an image of the check. Also, if using the Document Management System, you can view an already stored image on the system by right clicking with you mouse on the Check# field.

Check Date - Enter the check date and hit <ENTER>. You may also click on the drop down arrow box to display the MDS calendar and select a date.

The check information will now be displayed.

A/P Vendor Detailed Payables Inquiry

The Vendor Open Payables Inquiry displays all accounts payable records, with detail.

Vendor# - Enter the specific vendor number. You may also use the 'F7' function key, click on the 'INQUIRY' icon or click on the down arrow next to the field to display the lookup box. The system will display the vendor number and name.

The system will display the pop-up box:

'SELECT INQUIRY TYPE:'

Current will display the current accounts payable information. History will display the history information. History is updated during accounts payable end of month.

For this example, choose CURRENT, then click 'OK'.

Company# - For this field you have multiple options:

1. Enter the 2 digit company number. You may also use the 'F7' function key, click on the 'INQUIRY' icon or click on the down arrow next to the field to choose from a list of valid companies. The system will display the company number and name.
2. Type 'A' to see information for all companies.
3. Type 'I' to input an invoice number, which will only return information with that specific invoice number.
4. Type 'C' to input a check number, which will only return information with that specific check number.
5. Type 'B' to input a beginning invoice date, which will only return information that starts with the inputted invoice date.

Vendor Relationship Management Call Detail

When a vendor is selected, the selected Vendor record is displayed. This is the process where individual calls, or notes, are recorded.

Note: When entering the VRM Detail screen, if a record for this vendor already exists, then you will be forwarded to the bottom of the screen. If it does not exist, you will start at the first field, Contact.

- Contact** – The contact name.
- Phone#** - The phone number.
- PO Contact** – The purchase order contact name.
- PO Phone#** - The purchase order phone number.
- E-Mail** – Email address.
- Fax#** - Fax number.
- Follow Up** – The follow up status date. The follow up date can be updated by clicking on the drop down arrow next to the field, then by clicking on the correct date.
- Comments** – Any comments can be added.

Function Keys**

Vendor Relationship Management Call Detail

OperRef – Enter the operator initials, if different than your own. You can hit <ENTER> to select your own operator initials.

Date – Enter date of note or hit <ENTER> to use the system date.

Time – Enter the time, in military format, or hit <ENTER> to use the system time.

Contact – Enter the contact name.

Notes/Text – Enter the actual note. You may use word processing features to cut/copy/paste information into this field, if you wish.

Topic - Enter a value that can be used to categorize this set of comments. This value can then be used at a later time to view all comments related to a specific topic.

PO/Inv# - Enter a Valid Purchase Order or Invoice Number – if applicable.

Ret – Enter retain code, "Y" or "N".

When completed, the system will forward the operator to the bottom of the screen, with the prompt:

Enter Line Number to Change or '0' to Accept:

Enter '0' to save the changes. To return to the A/P Vendor Detailed Payables Inquiry, click on the 'CANCEL' icon or hit the 'F8' function key.

Stock Status Inquiry

The middle portion of this inquiry displays stock status information. The product's primary location. And the Sales Month to Date and Sales Year to Date.

- Ln** – Line number.
- Whs** – Warehouse number.
- Loc** – Primary location item is in.
- On Hand** – On hand quantity. The on hand quantity is the in pick quantity – backorder quantity + the available quantity.
- In Pick** – The in pick quantity currently on orders that have not been verified.
- In Work** – In work quantity, used with the Raw Materials module.
- Back Ord** – Backorder quantity.
- In Use** – In use quantity, used with the Raw Materials module.
- OnOrder** – The total quantity ordered on Purchase Orders that have not been received.
- In Trans** – In transit quantity.
- Avail** – Available quantity. The available quantity is the on-hand quantity – the in pick quantity.
- Lot Item** – Lot item indicator. 'Y' = lot item, 'N' not a lot item.
- Next P/O** – When the oldest purchase order, for this item, that has not been received is due on.
- ROP** – Reorder point. The point at which the Inventory Management program should trigger this item to be ordered from a vendor.
- ROQ** – Reorder quantity. The quantity that should be ordered, from a vendor, when the reorder point is triggered.
- SalesMtd** – The sales quantity month to date.
- SalesYtd** – The sales quantity year to date.

Inventory Inquiry – Customer Orders

The inquiry is now split into 2 sections, Customer Orders and Purchase Orders. To select the section you wish to use, click on field labels 'Select Orders' or 'Select POS'. The field is circled in the example.

Customer Orders Section

- Ln#** - Line number.
- Order#** - The customer order number.
- Ord Date** - The order date.
- OpenQty** - The open quantity.
- Due Date** - The date the order is due.
- Customer#** - The customer number.
- Customer PO#** - The customer's purchase order number, if entered when the order was placed.
- Price** - The price the item was charged at.
- Total** - A grand total of all open quantity is displayed.

NEXT PG - The NEXT PAGE function is available by clicking on the 'NEXT PG' icon or by hitting the 'F6' function key. This function will be used simultaneously with the PREV PG function to page forward through the customer open orders that this item is currently open on.

OR

PREV PG - The PREVIOUS PAGE function is available by clicking on the 'PREV PG' icon or by hitting the 'F5' function key. This function will be used simultaneously with the NEXT PG function to page backwards through the customer open orders that this item is currently open on.

Drill Down Capabilities

In this inquiry, there is a highlighted field that the user can click on to drill down further into the system to research specific information.

Order# - By clicking on a specific order number, the user will drill down to the Detailed Order Inquiry. This is discussed earlier in the guide.

Function Keys

The Detailed Order Inquiry is also accessible by clicking on the 'DET ORDER' icon, or hit the Shift+'F3' function key. This inquiry will display the detailed information for the specified order.

Inventory Inquiry – Purchase Orders

The second section of the inquiry shows all the open purchase orders the item is still on. To select the Purchase Order function, click on the label 'Select PO's'. The field is circled in the example.

Purchase Orders Section

- Ln#** - Line number.
- P/O** – The purchase order number.
- PO Date** – The purchase order date.
- Vendor#** - The vendor number.
- Open Qty** – The open quantity on the purchase order.
- Intr Qty** – The intransit quantity.
- Due Date** – The date the purchase order is due in by.
- MfgBo** –'Y' = the item is on a manufacturer's back order, otherwise, it is 'N'.
- Cost** – The cost of the item.
- Hld** – Hold. If the purchase order is on hold, it will be equal to 'Y', otherwise, it is 'N'.
- St** – Type of purchase order. 'ND' = non-direct, 'DS' = direct ship.
- Total** – A grand total of all open quantity is displayed.

Inventory Availability Inquiry

The Availability Inquiry provides the projected quantity on hand of a product for the next six months. The inquiry takes the current on hand, adds in quantity on PO plus quantity on work order then subtracts open customer orders. Drop Ship PO's are not included.

Product# - Enter the specific product number. You may also use the 'F7' function key, click the 'INQUIRY' icon or click the drop down arrow next to the field to display the lookup box. The system will display the product number and name.

Warehouse - Enter the warehouse number. You may also use the 'F7' function key, click on the 'INQUIRY' icon or click the drop down arrow next to the field to display the lookup box. The system will display the warehouse number and name.

Date - Enter the date for the time period you wish to view. Data will be displayed for the six months after the date entered.

Unit Meas - The item's unit of measure.

Avail Date - The data available is displayed. The dates are broken down into 15 day sections, for 6 months.

On Hand - On hand quantity.

Vend On Ord - The quantity on an open purchase order.

Cust. Orders - The quantity allocated to customer orders.

Balance - The remaining balance.

Enter Line Number to Change, 0 to exit:

Click on the 'CANCEL' icon or hit the 'F8' function key to exit.

Detail Open PO Inquiry

This inquiry displays detailed information for any PO in the MDS system. To display the PO, you must enter the PO number and hit the <enter> key.

This screen displays 4 lines of product. To scroll through multi-page POs use the **NEXT PG (F6)** and **PREV PG (F5)** buttons.

Field definitions are as follows:

- PO#** – You must enter the PO number in this field to display the inquiry.
- Vendor#** – Vendor number for this PO.
- ShipTo** – Ship To address.
- Whse** – Warehouse associated with this PO
- Ord Date** – Order Date, or the date PO was entered.
- Due Date** – Date the product is expected to be received.
- PromDate** – Promise Date (from the vendor)
- ShipDate** – Date the product is scheduled to be shipped.
- DropShip** – Indicates whether the PO is a drop-ship.
- Total Order\$** – Total value of the PO.
- Total Open\$** – Total value of the PO that is not yet received into inventory.
- Curr** – Type of currency being used for this PO.
- Agent** – Agent number for this PO.
- Req#** – Requisition number for this PO
- Ship Inst** – Shipping instructions.
- Product Number** – Product number for the item.
- Description** – Description of the product from the product master file.
- UM** – Purchasing Unit of Measure
- Ordered** – Total quantity ordered.
- Open** – Quantity of product not yet received.
- Received** – Quantity of product received into inventory.
- InTrans** – Quantity of product currently in transit.
- Due Date** – Date the product is expected to be received.
- Cost** – The per unit cost from the Cost file.

For all inquiries, it is important to check the Shift-function buttons. Each inquiry uses these keys to access different relevant information.

- This inquiry includes the following links:
- Click on the **INTRANSIT** button to open the **Intransit By Item** inquiry for this product
- Click the **PRINT** button to print a copy of the PO
- Click the **RCVR#INQ** button to display a list of receivers for this PO.

Open PO by Item Inquiry

To display a list of POs for a specific product, use the **Open PO by Item inquiry**.

Item Number: Enter the product number of the item and then hit the **<enter>** key. You can also use the **INQUIRY** function to get a list of products to choose from.

As with the previous inquiry, MDS only displays 4 lines per page. To scroll through multi-page POs use the **NEXT PG** and **PREV PG** buttons.

Field definitions are as follows:

- Description** – Description of the product from the product master file.
- UM** – The Purchasing Unit of Measure
- On Hand** – Actual quantity currently in inventory
- Backord** – Quantity currently back-ordered to customers.
- In Pick** – Quantity currently in the pick process
- In Use** – Component parts for work order production.
- Avail** – Quantity available for customers to order at this time. ONHAND-BACKORD-IN PICK=AVAIL
- On P/O** – Quantity on every open PO.
- In Trans** – Quantity currently in transit but not yet received into inventory.
- In Work** – Quantity currently in production.
- Future** – Quantity on “Future” orders.
- Ln#**– Line number for this Inquiry
- PO#/ Ln#** – PO number(s) associated with this product, along with the line number on the PO on which this product appears.
- Vendor** – Vendor for the ordered product.
- Customer** – Displays the customer for which the PO was created. (Used for Drop Ship orders only)
- Ord Date** – Order Date, or the date the PO was entered.
- Due Date** – Date the product is expected to be received.
- Ordered** – Total quantity ordered.
- Unit Cost** – The per unit cost from the Cost file.
- Received** – Quantity of product received into inventory.
- Intransit** – Quantity of product currently in transit.
- Open** – Quantity of product not yet received.
- Hold** – Indicates whether the PO has been put on hold.
- DS** – Indicates whether the PO is a drop-ship. (DS/ND)
- Total Value** – Displays total open \$ amount for this product. (Open amount x Unit Cost). There are also totals for Ordered Qty, Received Qty In transit Qty and Open qty.

Notes:

Function Keys:
 Click on **IN TRANS** button (SHIFT-F1) to open the **Intransit By Item** inquiry for this product. (circled)

Detail In Transit Inquiry (Specific) Inquiry

This inquiry displays a list of products that are In Transit and on a specific PO. You must enter both the PO number and the In Transit number and then hit the <enter> key.

Prompt:

Enter END to Exit, NEXT PG or PREV PG:

Typing END or Clicking OK/END will take you out of this inquiry.

Clicking **NEXT PG** and/or **PREV PG** buttons will scroll you through all Pos listed. This screen will display up to 11 products. If there are more products than are displayed, use the **NEXT PG** and **PREV PG** buttons to scroll through.

Field definitions are as follows:

PO# – Enter the PO number in this field to display the inquiry.

Intrans# – Enter the In Transit number in this field to display the inquiry.

Vendor – Vendor’s number and name.

Whse – Warehouse number for this PO

Invoice – Invoice number supplied by vendor.

B/L# – Bill of Lading number

On Board Date – Date product should be on-route

Vessel – Vessel number

Container – Container description

Size – Container size

Expected Arrival Date – Date product should arrive or intran transit Date.

LN#- Line number for this Inquiry

Product – Product Number in transit. PO may have additional products listed but not in transit.

Description – Description of Product in transit

Intran Qty – Quantity of product in transit. (This may not be the same as all product ordered on the PO).

UM – Unit of Measure for quantity field.

Due Date – Date product is due to be received.

Customer Pro Forma Summary Inquiry

This inquiry will provide a list of all pro forma's that have been entered for a particular customer.

Customer - Enter the specific customer number. You may also use the <F7> function key, click on the 'INQUIRY' icon or click on the drop down arrow next to the field to display the lookup box. The system will display the customer number and name.

Company - Enter the 2 digit company number. You may also use the <F7> function key, click on the 'INQUIRY' icon or click on the drop down arrow next to the field to choose from a list of valid companies. The system will display the company number and name.

Name - The full name of the customer is displayed.

Address1 - Customer street address is displayed.

Address2 - Any additional address information is displayed.

City - The city, state, and zip code is displayed.

Phone # - The customer's phone number is displayed.

Contact - The name of the contact at the customer site is displayed.

Salesman - The salesman assigned to this customer account is displayed.

Credit Limit - The customers credit limit if any, is displayed.

Credit Hold - Customer credit hold status will be displayed. If the customer's account is on hold a 'Y' will display, if not an 'N' is displayed.

ALC Priority - The allocation priority code displayed from the Customer Master file.

Line - The line numbers for each quote is displayed.

Quote # - Customer's pro forma number.

Cust Ref - Any customer reference number.

Ord Dt - The date of the pro forma.

Return Authorizations by Customer Inquiry

This inquiry will provide a listing of all the customer's return authorizations.

Customer - Enter the specific customer number. You may also use the <F7> function key, click on the **'INQUIRY'** icon or click on the drop down arrow next to the field to display the lookup box. The system will display the customer number and name.

Company - Enter the 2 digit company number. You may also use the <F7> function key, click on the **'INQUIRY'** icon or click on the drop down arrow next to the field to choose from a list of valid companies or hit <ENTER> and the system will choose ALL companies on the system. The system will display the company number and name.

Name - The customer's name and address information is displayed from the Customer Master File.

Phone # - The customer's phone number is displayed.

Contact - The contact name.

Salesman - The salesman for this customer.

Line # - Line number.

Return # - The return authorization number.

Hist - An asterisk indicates a history record for the return authorization.

Cust Ref - Customer reference, an information only field.

Rtn Date - Date the return authorization was entered.

Recv Date - Date the return is to be received. The date the return authorization was entered will display until it is received.

Rsn - The reason code for the return.

Whs - The warehouse that the merchandise was originally purchases from.

Return Authorizations by Product Inquiry

This inquiry will provide a listing of all return authorizations entered on the system for a specific product.

Item Number - Enter the specific item number. You may also use the <F7> function key, click on the 'INQUIRY' icon or click on the drop down arrow next to the field to display the lookup box. The system will display the item number and description.

Whs - Enter the 3-digit warehouse number. You may also use the <F7> function key, click on the 'INQUIRY' icon or click on the drop down arrow next to the field to choose from a list of valid warehouses. You can also hit <ENTER> to display information for all warehouses that are on the system.

Price UM - The unit price and pricing unit of measure.

Cost UM - The unit cost and costing unit of measure.

Loc - Location.

Sell UM - The selling unit of measure.

Stock UM - The stocking unit of measure.

Ln # - Line number.

Return # - Return authorization number.

Hist - History.

Rtn Ln # - Line number on the return.

Customer # - The customer number and name are displayed.

Detailed Open Standing Orders Inquiry Inquiry

This inquiry provides the current standing order status for a specific standing order.

Order# - Enter the specific eight digit order number or enter 'C' to use the customer's purchase order number to search the Standing Order file. If looking up a standing order using the customer's purchase order number: enter the customer's purchase order number and hit <ENTER>. The customer name and ship-to information from the orders with that purchase order number will be displayed, highlight the correct standing order and hit <ENTER> to select that order.

Customer# - The customer number is displayed along with the customer name.

Order Date - Order date of the standing order.

Due Date - Due date of the standing order.

Ln# - Number of lines on the standing order.

Item Number - External product number.

Description - Product description is displayed from the Product Master file.

Vendor Number - Vendor number is displayed.

Ordered - Standing order quantity.

Dropship - Drop ship indicator. If the line on the order is flagged a drop ship 'DS' will be displayed in the field, otherwise 'ND' will be displayed.

ShipFrom - The shipping warehouse is displayed.

Sell UM - The selling unit of measure is displayed.

Backord - Backordered quantity.

Disc% - Discount percent is displayed.

Department - The department is displayed from the Order record.
