# KPI = Key Performance Indicator

**Key Performance Indicators show vital business metrics over time as well as real time snapshots of important information such as Inventory Value or Items Below ROP.**

**Key Performance Indicators are written using industry standard SQL queries.**

Charts | Key Indicators

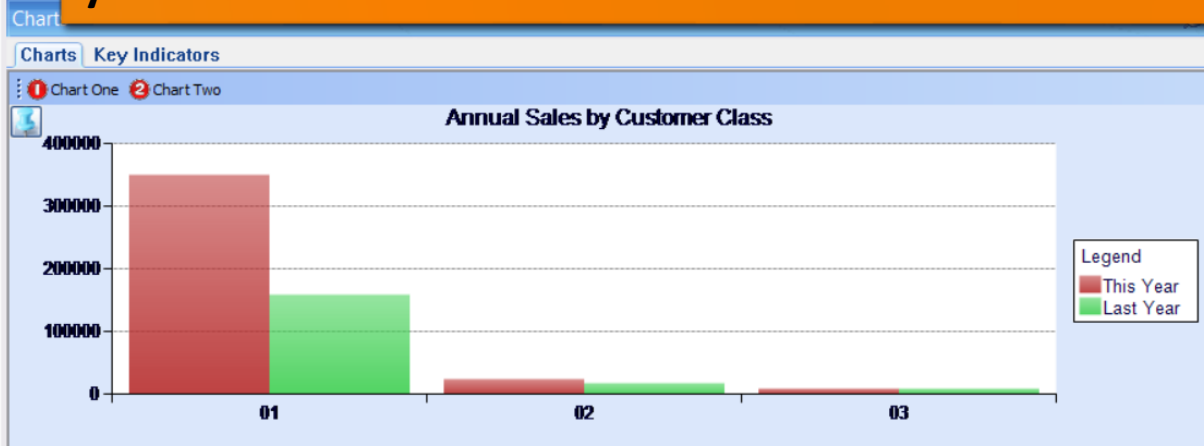

Indicator	Daily	Monthly	This Year	Last Year
Credit Dollars	\$1,283	\$30,400	\$99,015	
Sales Dollars	\$10,000	\$285,000	\$12,456,800	
Inventory Value	\$147,028,...			
Purchase Orders Past Due Date	67			
Latex Products	71			

# Lines and Pies and Bars oh my...

There are a wide variety of Charts available to provide a live up to date pictorial view of your favorite business metrics.

All Charts are based on industry standard SQL queries and can be created tailor made to your specific needs. Any data you can query can easily become a chart on your dashboard!

# Operator Dashboard Maintenance

**KPIs and Charts are individually tailored to your MDS Operator Code. Simply choose from the list of available selections and it will be added to your Dashboard!**

# Create Default Dashboards

**We can create a default set of KPIs and Charts for all your operators and then they can be individually customized using the Operator Dashboard Maintenance. There is an additional default setup for Salesmen.**

**Annual Sales by Customer Class**

Customer Class	This Year	Last Year
01	350,000	150,000
02	20,000	15,000
03	5,000	5,000

The screenshot shows a software interface with a menu on the left and a bar chart on the right. The menu includes items like 'Utilities', 'Reconcile Menu', 'Recall Generator', and 'Create Default Dashboards'. The bar chart displays 'Annual Sales by Customer Class' with a legend for 'This Year' (red) and 'Last Year' (green). The x-axis shows customer classes 01, 02, and 03, and the y-axis shows sales values from 0 to 400,000.

# Salesman Default Dashboard.

**Each Salesman can now track his results and his workload as he uses the system.**

**Key Indicators**

Indicator	Daily	Monthly	This Year	Last Year
Sales Dollars for Sism 001 SY FERTIG	\$373	\$36,392	\$271,658	
Returns Dollars for Sism 001 SY FERTIG	\$0	(\$1,353)	(\$6,275)	
GP Dollars for Sism 001 SY FERTIG	\$167	\$390	\$390	
Calls for Sism 001 SY FERTIG				
Initial Calls for Sism 001 SY FERTIG				

The screenshot shows a software interface for a salesman's dashboard. At the top, there's a browser window title 'tshpe2 - [tshpe2.tshinc.com-DEMO.12-MAIN.MENU]'. Below it is a menu bar with options like File, Edit, Settings, Reset, Tools, Mode, Standard Functions, Special Functions, Refresh Dashboard, and Help. A left sidebar contains a 'MDS Menu' with various application folders such as Customer Service, Purchasing, Warehouse Management & Inventory, Sales Analysis, Sales Management Menu, Accounting Menu, File Maintenance, End of Period Processing, Utility Menu, Customer Special Programs, Optional Systems, and Quick Search. Each folder has a star icon and a question mark. The main area displays a 'Tasks' section with a date and time filter (07/25/2014, 8:00 am) and a table with columns for Date, Time, Description, Status, D..., O..., and Task Nu... The table shows one task: '7/28/2014 8:00 am Call Bob at Medfast' with a status icon and task number '0000507'. Below the tasks is a 'Key Indicators' section with a table showing sales and returns data for 'Sism 001 SY FERTIG'. At the bottom, there's a toolbar with icons for Oe, Contacts, Maint, Drill, Execinq, Reports, Capt Off, View, Crm.menu, Vrm.menu, Help, Ok/End, Insert, Delete, Prev, Next, Inquiry, Cancel, Off, and Popup. The system tray at the very bottom shows 'The Systems House | Ready' and the date/time '7/25/2014 3:33:02 PM' along with system status indicators like CAP, NUM, and SCRL.

MDS Dashboard Indicator Maintenance

Indicator Name: CURR.INV.VAL

1.Caption: Inventory Value

2.SQL Statement: SELECT SUM(DAILY\_BAL.CURR\_VAL) AS TOTAL\_VALUE FROM DAILY\_BAL

3.Daily Field: TOTAL\_VALUE

4.Monthly Field:

5.YTD Field:

6.Last YTD Field:

7.Data Format: D

8.DrillDown Report: INQUIRIES011;14

Enter a standard SQL statement to retrieve the data.

Enter field names to display in the KPI columns.

Set the Data Format:

D	Dollars
P	Percent
I	Integer

Choose any MDS Inquiry or Crystal Report as the Drilldown.

Creating your own KPIs using the MDS Dashboard Indicator Maintenance is easy.

**Refresh the dashboard and you have a chart that shows this year's sales compared to last year's sales.**

A Line graph can be used to compare one or two sets of data on the same chart over time, for example last years sales vs this years sales.

Each chart is created solely by using standard SQL statements.

For a line chart, set one or two SQL statements to compare and choose fields for the X and Y axis

Set the Type of Chart to:  
P – Pie chart  
B - Bar Chart  
L - Line Chart

Set an MDS Menu item or any Crystal Report as the drilldown for the chart.

The screenshot shows the 'MDS Dashboard Chart Maintenance' application window. The interface includes a menu bar (File, Edit, Settings, Reset, Tools, Mode, Standard), a toolbar with icons for Help, Ok/End, Insert, Delete, Prev, Next, Inquiry, Cancel, Off, and Popup, and a status bar at the bottom. The main area contains a form with the following fields:

- Chart Name: SALES\_YEARLY-TREND
- 1.Caption: Sales Dollars Yearly - Annual Trend
- 2.SQL Statement: SELECT DAILY\_BAL\_HIST.UPD\_MONTH,DAILY\_BAL\_HIST.SOR T\_MONTH,AVG(DAILY\_BAL\_HIST.SALES\_YEARLY) AS TOTAL INFO FROM DAILY\_BAL\_HIST GROUP BY DAILY\_BAL\_HIST.
- 3.X-Axis Field: UPD\_MONTH
- 4.Y-Axis Field: TOTALINFO
- 5.Y-Axis Legend: Sales Dollars Yearly
- 6.SQL Secondary: (empty)
- 7.Sec X-Axis Field: (empty)
- 8.Sec Y-Axis Field: (empty)
- 9.Sec Y-Axis Legend: (empty)
- 10.Type: L
- 11.DrillDown Report: (empty)

At the bottom of the form, there is a prompt: 'ENTER LINE # TO CHANGE,DELETE TO DELETE,0 TO ACCEPT' and a yellow input field containing 'XXXXXX'. The system tray at the bottom right shows the date and time: '10/16/2014 4:43:50 PM'.

# Find Menu

The screenshot displays the BASE.12 application interface. At the top, the title bar reads "BASE.12 - [REDHATRS.TSHINC.COM-BASE.12-MAIN.MENU]". Below the title bar is a menu bar with options: File, Edit, Settings, Reset, Tools, Mode, Standard Functions, Special Functions, Refresh Dashboard, and Help. A toolbar follows with icons for Help, Ok/End, Insert, Delete, Prev, Next, Inquiry, Cancel, Off, and Popup. A second row of icons includes Oe, Contacts, Maint, Drill, Execing, Reports, Capt Off, View, Crm.menu, and Vrm.menu.

The main interface is divided into several sections. On the left is the "MDS Menu" with a "Shortcuts" section containing a search box and "Home", "Back", and "Help" buttons. Below this is an "Application" list with 12 items, each with a folder icon, a star, and a question mark icon. The "Find" menu is open, showing a search box and a list of items: Customer Invoices, Customer Sales Orders, Customer Quotes, Customer Detail History, Product Detail History, A/R Checks, Purchase Orders, Vendor Payables, and A/P Checks. Each item has a question mark icon to its right. Below the list are "Charts" and "Key Indicators" sections, with "Chart One" and "Chart Two" listed.

An orange callout box with a white border is overlaid on the interface, containing the text: "Search for Invoices, Purchase Orders or use the find box to search for anything!". An orange arrow points from the callout box to the search box in the "Find" menu.

At the bottom of the interface, the status bar shows "The Systems House | Operator:ME Ready." on the left, and "5/10/2016 09:48 | CAP | NUM | SCRL" on the right, followed by a green progress bar.

# New Appearance Options

# New Appearance Options:

The screenshot displays a software application window titled "BASE.12 - [REDHATRS.TSHINC.COM-BASE.12-MAIN.MENU]". The interface features a modern, clean design with a prominent toolbar at the top. The toolbar includes various icons for navigation and actions, such as Help, Ok/End, Insert, Delete, Prev, Next, Inquiry, Cancel, Off, Oe, Contacts, Maint, Drill, Execing, Reports, Capt Off, View, Crm.menu, and Vrm.menu. Below the toolbar is a menu bar with options like File, Edit, Settings, Reset, Tools, Mode, Standard Functions, Special Functions, Refresh Dashboard, and Help.

The main content area is divided into several sections:

- Shortcuts:** A sidebar on the left with a search bar and navigation buttons (Home, Back, Help). It lists 12 application categories, each with a folder icon, a star rating, and a question mark icon. The categories are: 1.Customer Service, 2.Purchasing, 3.Warehouse Management & Inventory, 4.Sales Analysis, 5.Sales Management Menu, 6.Accounting Menu, 7.File Maintenance, 8.End of Period Processing, 9.Utility Menu, 10.Customer Special Programs, 11.Optional Systems, and 12.Quick Search.
- Find Tasks:** A central panel with a search bar and a list of tasks. The tasks listed are: Customer Invoices, Customer Sales Orders, Customer Quotes, Customer Detail History, Product Detail History, A/R Checks, Purchase Orders, Vendor Payables, and A/P Checks. Each task has a question mark icon to its right.
- Charts:** A section at the bottom right with tabs for "Charts" and "Key Indicators". It shows two chart options: "Chart One" and "Chart Two".

The bottom status bar displays "The Systems House | Operator:ME Ready." on the left and "5/17/2016 12:45 | CAP | NUM | SCRL" on the right, along with a progress indicator.

# SQL Logging

The screenshot displays a terminal window titled "BASE.12 - [REDHATRS.TSHINC.COM-BASE.12-MAIN.MENU]". The window contains a log of system events and SQL commands. The log entries are as follows:

- 12:42:57 PM MDS-NX Load started.
- 12:43:34 PM Dataform Load started.
- 12:43:34 PM Dataform Loading Toolbars
- 12:43:37 PM Dataform Loaded Toolbars
- 12:43:37 PM Dashboard Load started.
- 12:43:40 PM DashChart Query started.
- 12:43:40 PM DashChart Query SQL Command: `SELECT * FROM OPERATOR_DASHBOARD WHERE OPERATOR = 'kpl'`
- 12:43:41 PM DashChart Load completed.
- 12:43:41 PM Shortcut Load started.
- 12:43:41 PM Shortcut SQL Command: `SELECT * FROM OPERATOR_SHORTCUTS WHERE OPERATOR = 'kpl' ORDER BY SORTSEQUENCE`
- 12:43:41 PM Shortcut Load completed.
- 12:43:41 PM Status Bar Load started.
- 12:43:41 PM Status Bar SQL Command: `SELECT OPER_REF FROM OPERATOR WHERE OPERATOR = 'kpl'`
- 12:43:41 PM Status Bar Load completed.
- 12:43:41 PM History Load started.
- 12:43:41 PM History SQL Command: `SELECT * FROM OPERATOR_HISTORY WHERE OPERATOR_HISTORY.OPERATOR = 'kpl'`
- 12:43:41 PM History Load completed.
- 12:43:41 PM KPI Load started. 12:43:41 PM
- 12:43:41 PM KPI SQL Command: `SELECT * FROM OPERATOR_DASHBOARD_IND WHERE OPERATOR = 'kpl'`
- 12:43:41 PM KPI Load Completed.
- 12:43:41 PM Task Load Started.
- 12:43:41 PM Task SQL Command: `SELECT * FROM TASK_LISTS WHERE OPERATOR = 'kpl' AND COMPLETE = 'N'`
- 12:43:41 PM Task Load Completed.
- 12:43:41 PM Dashboard Load completed.
- 12:43:44 PM Dataform Loaded Controls
- 12:43:44 PM Dataform Loaded Scanner
- 12:43:45 PM Dataform Load Resized Form
- 12:43:45 PM Dataform Load completed.
- 12:43:45 PM MDS-NX Pre Dataform.
- 12:43:47 PM Skin Loading started.
- 12:44:00 PM Skin Loaded.
- 12:44:00 PM MDS-NX Setup started.
- 12:44:00 PM MDS-NX Setup completed.
- 12:44:09 PM Clicked OK to Login.
- 12:44:10 PM Open Telnet Connection.
- 12:44:10 PM Telnet Host:REDHATRS.TSHINC.COMProtocol:SSH
- 12:44:10 PM Telnet Connected.

The terminal window also features a menu bar with "Close", "Download Log", and "Send to TSH" options. The system tray at the bottom shows "The Systems House", "Operator:ME Ready.", and the date/time "5/17/2016 12:53".

# Check Version

The screenshot displays the MDSforWindows software interface. The 'Tools' menu is open, with 'Check Version' selected. A sub-menu is visible with 'Check Now' and 'Check At Startup' options. An orange callout box points to these options with the text 'Check Version Now or at Startup.' Below the menu, a dialog box titled 'MDSforWindows 11.1.7' is shown, containing the message: 'Your Version is <11.1.7>, Version <11.1.5> is available, Upgrade Now ?' with 'Yes' and 'No' buttons.

**Check Version Now or at Startup.**

**MDSforWindows 11.1.7**

Your Version is <11.1.7>, Version <11.1.5> is available, Upgrade Now ?

Yes No

The Systems House Operator:ME Ready. 5/18/2016 16:42 CAP NUM SCRL

# Shortcut Organizer Lines

The screenshot displays the MDSforWindows 11.1.7 application interface. At the top, there is a menu bar with options like File, Edit, Settings, Reset, Tools, Mode, Standard Functions, Special Functions, Refresh Dashboard, and Help. Below the menu bar is a toolbar with various icons for Help, Ok/End, Insert, Delete, Prev, Next, Inquiry, Cancel, Off, and Popup. A secondary toolbar contains icons for Oe, Contacts, Maint, Drill, Execing, Reports, Capt Off, View, Crm.menu, and Vrm.menu. The main window is divided into several panes: a left sidebar with a 'Shortcuts' list, a central 'MDS Menu' pane, and a right pane with a 'Find' search box and a list of tasks. The 'Shortcuts' list includes items like '---Customer Service', 'Order Entry', 'Detailed Order Inquiry', 'Customer Master Maintenance', 'Customer Relationship Inquiry (Detail)', 'Customer Service', 'Purchasing', 'Product Labels', 'Location Adjustment', and 'Quick Search'. Each item has a red minus icon and green plus icons. An orange arrow points from the '---Customer Service' item to a dialog box titled 'MDSforWindows 11.1.7'. The dialog box has a title bar with a close button, a text input field containing 'Warehouse', and 'OK' and 'Cancel' buttons. Another orange arrow points from the 'Purchasing' item to the same dialog box. A large orange callout box with the text 'Right click on a shortcut line and a text box will pop up.' is positioned at the bottom left. In the background, a chart titled 'Sales Units by Product Class Description' is visible, showing two data series: 'Chart One' at 0.1% and 'Chart Two' at 67.6%. The status bar at the bottom shows 'The Systems House | Operator:ME Ready.' and the date/time '5/31/2016 15:41' along with system icons for CAP, NUM, and SCRL.

Right click on a shortcut line and a text box will pop up.

# Shortcut Organizer Lines

The screenshot shows the MDSforWindows 11.1.7 application interface. At the top, there is a menu bar with options like File, Edit, Settings, Reset, Tools, Mode, Standard Functions, Special Functions, Refresh Dashboard, and Help. Below the menu bar is a toolbar with various icons for Help, Ok/End, Insert, Delete, Prev, Next, Inquiry, Cancel, Off, and Popup. The main area is divided into several panes. On the left, there is a 'Shortcuts' pane with a list of items: ---Customer Service, Order Entry, Detailed Order Inquiry, Customer Master Maintenance, Customer Relationship Inquiry (Detail), Customer Service, ---Warehouse, Purchasing, Product Labels, Location Adjust, and Quick Search. Each item has a red minus icon to its right. In the center, a dialog box titled 'MDSforWindows 11.1.7' displays the message: '---Warehouse has been added to your shortcut list.' with an 'OK' button. On the right, there is a 'Find' pane with a search bar and a list of tasks: Customer Invoices, Customer Sales Orders, Customer Quotes, Customer Detail History, Product Detail History, R Checks, Purchase Orders, Vendor Payables, and A/P Checks. At the bottom, there is a status bar with the text 'The Systems House | Operator:ME Ready.' and a date/time display '5/31/2016 16:00' along with other indicators like CAP, NUM, and SCRL.

Use the Arrows to move an item up or down. Use the Red minus to remove an item.

# History Tab

The screenshot displays a software interface with a 'History' tab selected. The interface includes a menu bar at the top with options like File, Edit, Settings, and Help. Below the menu is a toolbar with various icons for navigation and actions. The main area is divided into a left sidebar with categories like Shortcuts, History, Terminal, and Application, and a central pane showing a list of recent actions. A callout box highlights the History Tab, stating: 'History Tab, shows all the latest things you've done. And allows you to go back to any point in your day.'

# MDS Upgrade Procedure

- ❑ One major release scheduled every 6 months.
- ❑ The release is tested at TSH and then the same release is given to everyone providing for stability and ease of upgrade.
- ❑ Having everyone on the same release helps us provide better support.
- ❑ Patches and special programming requests can only be installed if they are compatible with the release you are on.

# Design your dashboard for success

- KPIs and Charts - vital up to date information on your MDS-Nx desktop.
- Lookups are more customizable than ever to suit your business needs.
- Shortcuts, History and the Find Menu make it easy to get where you need to go.
- Upgrades are now safer and easier than ever.
