### Mobile Websites vs. Mobile Apps

\*Source: Acquity Group's "M-Commerce Audit" survey of the top 300 retailers as named from Internet Retailer.

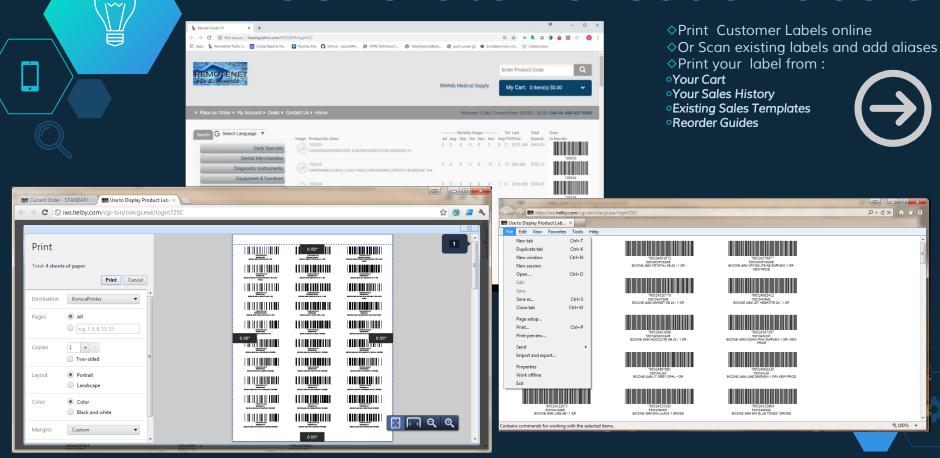

# ScanConnect Overview

Sign In	•Customers can create a mobile link on their phones/tablets to display the website directly	
Security	<ul> <li>Logins are secured by username and can be locked down to a specific facility/shipto or group of products.</li> </ul>	
Realtime Pricing and Inventory	•Site/app uses the same pricing and inventory as the MDS–Nx system in real time.	
Mobile Camera or Scanner	•Customers can use the phone on any device or a low cost compatible barcode scanner	
Easy Labeling	<ul> <li>Labels can be preprinted or customers can print their own labels online.</li> </ul>	
Existing Barcodes	•Alternately customers can scan existing barcodes and you can setup aliases to allow them to use those barcodes	
Custom Business Logic	•Orders follow the same flow and business logic as a standard web order	

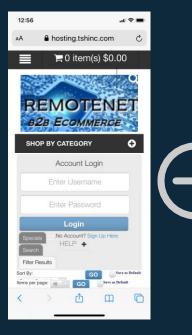

## Generate Barcode Labels
