IDN-Specific Supply Chain Solutions

TSH's Master Distribution System is an integrated information management software solution for leading IDNs, offering:

- Contract Management
- Purchasing & Receiving
- Warehouse Management
- Order Processing
- Financial Applications

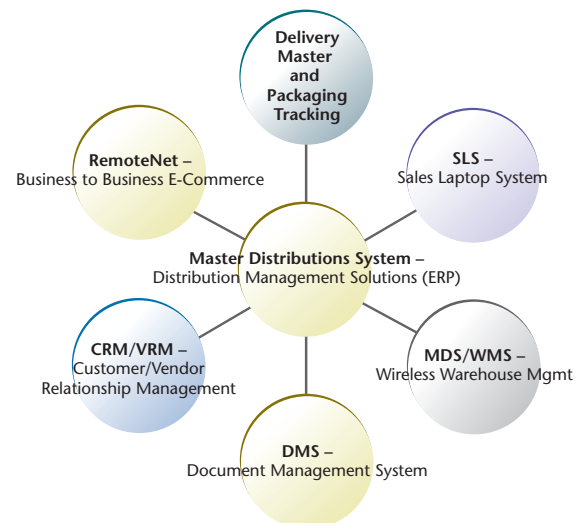

With more than 25 Years of Medical Distribution experience, **The Systems House (TSH)** is committed to providing Medical Supply Distributors and IDNs with practical, effective information management solutions. Solutions, proven to reduce costs and increase efficiencies throughout the Medical Supply Chain.

TSH's flagship product, the **Master Distribution System (MDS)**, is designed to operate in high-volume, order-intensive, service-oriented Medical Supply environments. A proven, mature and modern solution, MDS continues to evolve as TSH incorporates the best solutions and ideas generated by our interaction with leading medical distribution organizations. MDS represents your single, best choice for medical distribution information technology.

Long-term relationships result from products that work and people who are dedicated to each others success.

TSH Customers benefit from...

- A management team averaging 16.5 years direct MDS experience
- Full Implementation Support to get you up and running
- Comprehensive user training programs
- Responsive 24/7 Support from our dedicated TSH Support Team
- TSH's commitment to two-way communication
- On-going product enhancement

Master Distribution System and its companion products.

Dedicated to the Medical Supply Industry

MDS is a fully-integrated, easy-to-learn, enterprise software solution designed for Medical Supply Distributors and IDN's. Based on open architecture that allows expansion and integration with other products, the system is robust, stable and customizable. TSH's experience in the medical supply industry provides insights your organization can immediately benefit from, plus, two intangibles: dedication and integrity.

MDS and Its Companion Products Provide...

- **Versatility**

- Each MDS module operational as a stand-alone entity or as part of a fully integrated system

- **Key Medical Facility Functionality**

- EDI for purchasing, billing, rebate and sales tracking
- **Real-Time Rebate Calculation and Tracking**
- **E-Commerce with RemoteNet B2B** to solidify customer relationships
- **Remote Order Entry** providing your customers with 24/7 access for orders, order status and more
- **Compliant Reporting** that meets DEA and ARCOS requirements
- **Contract Management** to maintain contracts, facilitate standardization, create e-catalogs and monitor compliance
- **FDA Recall Control**
- **Custom Report Generation** with ad hoc query

Affordability and Flexibility

You can own TSH's MDS for a fraction of the cost of any of its competitors – or start enjoying all the benefits our system offers on a Timeshare (ASP) basis. To learn more call 1-800-MDS-5556, e-mail sales@tshinc.com or visit www.tshinc.com.

The Systems House, Inc.
